

“Your Children, Our Commitment”

Our Children deserve our attention. *All* of our attention.

Ever since our practice first opened in 1955, we have looked for ways to improve the lives of children in our community. Individually and collectively, we have successfully championed important legislation on behalf of children, provided medical care to poor families and made significant donations to local hospitals and charities. Now, we want to do more.

That is why Pediatric Associates, the nation’s largest private pediatric practice, proudly announces the establishment of the *Pediatric Associates Foundation*.

As dedicated pediatricians, trusted by South Florida parents for three generations, we are uniquely positioned to prioritize the healthcare needs of the children in our community. As we witness daily the numerous challenges our children and families face, we are able to identify the most critical issues and best determine where and how to achieve the greatest impact.

Our independent charitable organization’s mission is to support some of the area’s most important children’s programs by helping to raise awareness and provide funding for its projects. We also hope to stimulate and facilitate the development of innovative programs. As a volunteer organization, the Pediatric Associates Foundation is committed to seeing that valuable dollars are directed to initiatives that best and most profoundly affect our children.

We hope that you will contribute in anyway you can, either by making a generous financial contribution or by graciously volunteering your time and/or expertise. Remember that your donation is tax-deductible.

We have made ***Your Children, Our Commitment***.

With *your* commitment, we can build a foundation that helps each child develop into a strong and healthy adult, so that generations of children will grow up in an environment that promotes good health and an awareness, spirit and appreciation for the power of giving.

Please do not hesitate to contact me if you have any question or would like further information at lpages@pediatricassociatesfoundation.org.

Thank you for your kind attention,

Sincerely yours,

Luz Marina Pages, M.D.
President
