About Us

Pediatric Associates is one of the oldest and most respected pediatric practices in the United States. Founded in 1955, Pediatric Associates opened its first office in Hollywood, Florida. Since then, our physicians have cared for four generations of families with our first patients now bringing their children, grandchildren and great-grandchildren to our practice.

Pediatric Associates is considered one of the most visionary pediatric practices in the country. The company was one of the first medical groups to introduce satellite office locations staffed by multiple physicians. We were also one of the first pediatric groups to embrace managed care in the 1970s, collaborating with insurance plans as healthcare partners with the common interest of providing South Florida’s children with the best healthcare available.

Patient Centered Medical Home

At your Pediatric Associates Medical Home, we provide an array of services, including:

**Personal Provider** – Your child’s care is coordinated by the primary provider of your choice. Our Medical Home is a “Pediatric Team” or partnership between you, your child, your family and your primary care provider.

**Team Approach** – Your provider has a team of staff in the office who assist in managing chronic conditions.
- The front office staff will make arrangements for any special accommodations that your child needs prior to them coming into the office.
- Our goal is to make you/your child comfortable sharing any concerns you have with your Pediatric Team.

**Patient Centered Care** – The most important health care team members are – you/your child. Your child is our focus and so we will ask for information about the medical issues you are dealing with and also strive to understand the conditions at home and school which can affect your child’s health.
- Your Pediatric Team will know the health history of your child.
- They will listen to your concerns as well as your child’s.
- They will create a trusting and collaborative relationship with you and your child.

**Coordinated Care** – We will work with you and other health care partners to coordinate the care that your child receives outside our office. This will also allow us to maintain a complete care record for your child.
- Our referral staff and case manager will assist you with referrals to other specialist.
- Your personal Case Manager will sit with you to review any concerns, care plans, community resource needed, issues at school or help to arrange specialist visits.
- Your Case Manager will review a comprehensive care plan if your child has special health care needs and monitor any self-care plan your provider prescribes.
- Your Case Manager will conduct education for children that qualify for our Disease Management Program.

**Access to Care** – We are open 365 days a year, have weekend & evening hours, and can be reached by phone 24 hours a day. Call your child’s office or go to our website, www.pediatricassociates.com to make an appointment.

Your Electronic Health Records User Guide

www.pediatricassociates.com
In order to access your child’s Online Health Record, you will need to have the guarantor’s name and date of birth handy. This information must be entered exactly as it is in our system, based on the information you have provided us with in the past. If you have any problems creating an account, please e-mail us at portal@pediatricassociates.com or call us at 1-954-965-7749. You can access our patient portal from our website, www.pediatricassociates.com, on the Parent Resources page.

My Records
Our portal allows you to view your family’s records with a single login. When clicking on a particular name, you will be able to access that child’s Electronic Health Record.

Test Results
Accessing test results has never been easier!

Features of the Patient Portal
You can update personal information such as your child’s insurance, address, phone number and more from our Quick Links section of this portal. Now, your information will always be up to date and you can save time when visiting your doctor’s office for an appointment.

Immunizations
Use this screen to see a list of all immunizations that have been given to your child as well as details about those immunizations. You can also print a complete list from this screen rather than requesting it from your child’s office.

Medications
View a list of your current medications here and have easy access to quantities and refill information. You can also print a complete list from this screen rather than requesting it from your child’s office.

Upcoming Appointments
You can use this page to view upcoming appointments, book new appointments, and reschedule if necessary. This page will also show if you have an account balance with Pediatric Associates.
